CHALAN KANOA MARCH 20.-- CHEER UP, CHEER UP I PLAINLY SEE, BRIGHT GOLDEN DAYS IN STORE FOR THEE:-- (Copied from the Grade Teacher.) :-- At present some of the farmers who are occupying lands owned by another are not very happy at the prospect of moving out of the lands they have occupied for someti, to new areas. To them it meant starting all over again. It will take time to build new farms and prepare the soil for planting, but, looking into the future the farmers will be a lot better off with this new system the USCC and the Military Government worked out for them. Using former Jap lands whenever their own lands are not available, is far better than using lands owned by another as the danger of being removed from this land is less. We should all be happy that the emergency is now over, and that the Military Government is giving the people their own property back as soon as possible.

TOKYO, MARCH 17.-- GENERAL DOUGLAS MacARTHUR WANTS JAPAN TO BE PUT UNDER UNITED NATIONS CONTROL:-- Gen. Douglas MacArthur today urged the allies to conclude an early peace treaty with Japan, recall their troops as soon as the treaty is signed and place the country under United Nations control. Asserting that "Democracy in Japan is here to stay", MacArthur said "Bayonet control over Nippon" should end as soon as peace terms are arranged. The Supreme Commander also recommended that the allies settle repatriations which he called "worse than the atomic bomb",

Continued.

In a rare public appearance, MacArthur told the Foreign Correspondents Club that Japan must be restored as an industrial nation because she is unable to feed herself. "The present economic strangulation of Nippon is worse than the Atomic Bomb", he said. He declared Japan must be allowed to trade with the world on a system of private initiative, free from unnecessary Government of Allied Military Restrictions. The military phase of the Allied Occupation is over, MacArthur said, and the economic phase is in progress. The wartime economic blockade of Japan, still rigidly enforced, is endangering millions of lives, he said. "There would be no bayonet control over Nippon once the peace terms are arranged. "Conditions presently are ripe to initiate peace conversations. After the peace treaty, the control of nippon should be entrusted to the allied nations. "By renouncing war in her new constitution, Japan has thrown herself at the mercy of the allies. The allies have a normal responsibility to be entrusted with this task," MacArthur said. MacArthur said that if the United Nations ever were to succeed, Japan would provide it with it's most favorable opportunity. If the United Nations were to reject control of Japan, the "so-called New World order means nothing," he said. MacArthur deplored suggestions aboard that Japan should be isolated economically for 50 years. Such a policy, he said, would mean death and starvation for the majority of the people.
